the greek struggle against ottoman rule was a crucial event in the history and politics of nineteenth century europe in particular it had a strong impact on the political and cultural life of france during the bourbon restoration where it was appropriated and promoted as the symbolic spearhead of liberal ideas and of the growing romantic rebellion this book by nina athanassoglou kallmyer examines the french paintings prints and sculptures inspired by the greek war of independence athanassoglou kallmyer reinterprets important works by the foremost exponents of the romantic movement including delacroix gericault horace vernet ary scheffer and david d angers showing how they viewed the greek struggle as a setting for the opposing forces of conservatism and liberalism she explains that far from being mere pictorial records of specific war episodes such as the massacre at chios or the fall of missolonghi images of the clashes between greeks and turks reflected the mottos and arguments of the french liberal propaganda echoed as well by contemporary newspapers parliamentary debates broadsides pamphlets popular plays and poems
