the aim of this series is to bring together important recent writings in major areas of philosophical inquiry selected from a variety of sources mostly periodicals which may not be conveniently available to the university student or the general reader the editor of each volume contributes an introductory essay on the items chosen and on the questions with which they deal a selective bibliography is appended as a guide to further reading the newest addition to the successful oxford readings in philosophy series the philosophy of science contains the most important contributions to the recent philosophical debate on the authority of scientific theory the contributors ask whether we are justified

in believing scientific theories and what attitude we should take to them if we are not although few philosophers seriously question the existence of everyday objects like trees and tables many have real doubts about viruses electrons and gravitational waves the last two decades have seen important new work in the philosophy of science stimulated by sceptical attitudes towards scientific theories scientific realist have in turn countered with arguments of their own resulting in a wide ranging debate drawing from many different philosophical disciplines the philosophy of science bridges the gap between both sides of the argument including articles on different species of realism and anti realism the underdetermination of theory by evidence the lessons of the history of science naturalized epistemology of science and bayesian methodology

this book is an invaluable resource for training educators to work effectively with english language learners it presents a model of sheltered instruction the sheltered instruction observation protocol siop which provides school administrators teachers teacher candidates and university field experience supervisors with a tool for observing and quantifying a teacher s implementation of quality sheltered instruction making content comprehensible presents a coherent specific field tested model of sheltered instruction that specifies the features of a high quality sheltered lesson that teaches content material to english language learners each of the 30 items from the siop model are illustrated through vignettes three different lessons for each item are rated and discussed allowing the book to be applied to a variety of content areas and grade levels
